HISTORY OF HARRISON

Particularly the Troubles Through Which He Passed.

POSITION OF HIS DAUGHTER

Because of His Second Marriage and Her Withdrawal From His Home are Recalled by Broadbrim.

[SPECIAL CORRESPONDENCE. No. 1244]

NEW YORK, March 21—Ex-President Harrison is dead.

When the sun rose on Wednesday morning the announcement had girdled the globe. The first citizen of the Republic, who had scaled the dizziest heights of human ambition, has passed to his reward. From boynood to age, having fulfilled evey duty that a citizen owes his country or a man to his Maker, weary with this perilous and tireless journey, he lays down to sleep; and it is at this late hour that he is accused of questionable acts and that evil reports are raised against him. Judged by the highest standards that man knows of man, or man of his God, ex-President Harrison was an honored and faithful citizen. Starting life on his father's farm, he passed the novitiate of an ordinary American boy. From there he finds his way to a clerkship in a neighboring town and, step by step, he advances, and by his efforts reaches a lawyer's office and by hard work is at length admitted to the bar. Wherever he goes he leaves an honorable record behind him and eventually he becomes one of the most eminent legal counsel in the courts of his native state.

The free state of Indiana was not far from the slave state of Kentucky and the border ruffian of those early days was about equal to the pirates that cursed the Straits of Malacca and all the way down to the Indian sea. Slaves were brought from Kentucky and worked on Indiana farms. The Indiana farmers were aroused from their beds at midnight to hunt down a slave who was seeking freedom in Canada. For, alas, there was no protection for them within the American lines. The duty became so onerous that the citizens of the North rebelled. Then came the Civil war and its consequences. It was in the midst of this excitement that General Harrison was reared. On the organization of the Republican party he became an earnest worker and so continued till his death.

When the war broke out he went to the front and, at its close, returned home, having fulfilled the highest duty that the citizen owes to his country and his God.

In due time his countrymen looked about for some one to guide the ship of state to a safe harbor. The man selected was General Harrison of Indiana. His great name gave promise of success. The elder politicians remembered the campaign of his ancestor, another General Harrison, when the whole country was set aflame with log cabins and hard cider, and the hero of Tippecanoe became suddenly the idol of the people. Though triumphantly elected, his reign was brief, and he was succeeded by the vice president, John Tyler, who filled the presidential office till the end of Harrison's term.

But we must pass swiftly over these events in the early forties. During ex-President Harrison's presidential term his wife died and his daughter, Mrs. McKee, became first lady in the land, representing her dead mother. The deference paid her in the position in which she had been placed, was especially gratifying to her, and she hoped to still occupy her mother's place on her father's retirement from public life. The ex-president settled down in his old home in Indianapolis and resumed his practice of the law. While in Washington his wife's niece, her sister's child, was a frequent guest in the presidential household, and, after a time, it is said that a jealousy existed in the president's family at the marked attentions to Mrs. Dimmick, and it was not long until a very bitter feeling existed between Mrs. McKee and the lady who was then his wife. When his marriage was announced the rebellion broke out anew and Mrs. McKee and her husband retired from the Harrison home and no friendly relations were ever after resumed up to the time of the general's death, although he left his son and daughter $100,000, and every dollar of real estate that belonged to him at the time of his death.

PEOPLE WE KNOW

Their Comings and Goings and Society News in General.

—Miss Fannie Weaver is ill with the mumps.

—E. F. Stockum is visiting at his home near Bacon.

—Frank Howlett, of West Bedford, has returned to the city and will work at the carpenter trade.

—J. J. Hammond, who has been ill the past week with catarrh of the stomach, is improving slowly.

—Miss Alice Fowler, of Alliance, has returned to the city and resumed work as head trimmer for Mrs. Compton.

—Superintendent Smallsreed, of the Vehicle company, has gone to Newton Falls to attend the funeral of his mother.

—O. W. McMannis returned Thursday evening from Newark accompanied by his brother, Charles McMannis, who has been seriously ill with pneumonia. He is much improved.

—Otis Mitchell, of Mansfield, traveling salesman for the Coshocton Vehicle company, is in charge of the factory during the absence of Manager Robinson who has gone to Beverly for the purpose of moving his family to this city.

LAST OF THE BEAUTIFUL.

Spring Came With an Overcoat and Rubber Boots.

Spring came with a smile that only lasted a short time, and before the day was over it had retired to don an overcoat and rubber boots.

Snow flurries throughout Thursday were changed when twilight fell to heavy snow, and until almost midnight it continued. The flakes were large, and Coshocton has not seen a prettier snow storm during the winter. The snow was light and fleecy, and did not pack and melted quickly when the sun appeared this morning. The prophets say we will now have spring.

THE NEW DISTRICT.

Seventeenth May Have Knox County As a Companion.

The announcement is made that the state will be redistricted for congressional purposes by the next legislature, and the Ohio congressional delegation has already prepared its plan.

The proposed arrangement, if there is truth in the story, gives the Seventeenth as being make up of Coshocton, Licking, Holmes, Wayne, Tuscarawas and Knox. The population is 215,102.

BRACES FOR THE PRESENT

But an Arch Culvert May Span the Washout on the Wheeling.

Superintendent Van Dusen, of the Wheeling & Lake Erie, was here this week for the purpose of looking over the company's property.

The superintendent visited the washout near Chestnut street where the engineer and fireman of a freight train went down to death last August and which has since been spanned by a trestle. The trestle is safe enough but the company desires to make the improvement permanent. For the present the trestle will be well braced, but it is probable a handsome stone arch will be built within the year.

The Chicago Stock Company Next Week.

The production of the Chicago Stock company at the opera house next Monday evening is going to be greeted with one of the largest audiences that has been in our local theater for many a day. The city is advertised in a more thorough way than ever before and this taken with the well known reputation of the attraction has awakened an interest that is a guarantee of a large patronage for next week. The play announced for Monday evening is the "Australian," an American melodrama which was made famous by Frederic Reynolds, the popular remantic actor, and as this company carries special scenery and also a line of new specialties to brighten the production an excellent performance is promised all who are lucky enough to secure seats. 1t

SELLS DIDN'T APPEAR

He Secured a Marriage License Over a Year Ago

TO MARRY A DRESDEN WOMAN

But No Return Was Ever Made to the Probate Judge and the Matter Was Investigated.

The Zanesville newspapers are telling a curious story of a Coshocton county man who secured a marriage license and seemingly forgot about it. What follows is from the *Signal*:

"Benjamin F. Sells secured a marriage license to wed Ella Henry, August 13, 1900, but seemingly lacked the nerve necessary to go any further with the matter. When he secured the license Sells stated that he expected Mayor Baker, of Dresden, to marry him. Having received no return from Dresden's chief executive, Probate Judge Andrews wrote to him about the matter. Mayor Baker called at the probate judge's office Thursday and explained that after having secured the marriage license Sells never showed his face in Dresden and little is known of him there. Sells gave his age as 45 years and claimed to live in Coshocton county. Mrs. Henry lives in Dresden and is 31 years of age."

DEPOT MAIL BOX

Now in Successful Operation at the Pan Handle Station.

COSHOCTON POSTOFFICE.
March 22, 1901.

I have perfected arrangements for a depot mail box from which Pan Handle postal clerks will make collections. This service is now in operation. The purpose is to accommodate persons who have important mail which they cannot get ready in time to be dispatched through the postoffice. The service from the depot box will be operative both day and night.

In order to secure this extraordinary service I assured the department officials that the privileges of the depot box would not be imposed upon by people mailing there unnecessarily large amounts of matter, but that the people of Coshocton could be depended on to use the depot box *only in case of emergency*, i. e., when they have letters which they cannot get ready in time to be dispatched through the postoffice and quick dispatch is important. I trust the people of Coshocton will sustain my assurance in this respect, for if this extraordinary service were to be imposed upon by the people mailing there unnecessarily large amounts of matter there is danger that the depot box might be abolished by the department, as it would demoralize the railway mail service to receive large amounts of unfaced, uncanceled, unworked matter.

Use the depot box for *emergency mail only*.

STRUCK IT RICH.

Editor Cappeller Bids Fair to Become a Millionaire.

A year ago a number of Mansfield capitalists discovered a deposit of lead and zinc in Missouri and taking an option on the grouud quietly tested it. The result is so startling that each member of the company will in a few years be many times a millionaire.

The best part of this interesting story is that W. S. Cappeller, owner of the Mansfield *News*, is a member of the company and will enjoy the benefits to be derived from the great find. Mr. Capeller deserves all the good fortune that can come to him, and there is not a newspaper man in the country who has the pleasure of his acquaintance but rejoices in his good fortune and wishes he may live long to enjoy it.

Only a Plain Lie.

Recently THE AGE printed in its daily and semi-weekly editions the statement of Professor Speaks, of Warsaw, that he did not whip the Laughlin boy until he was injured Bahmer's *Brute* knows this to be true, yet the propensities of that miserable publication for lying are such that it has twice said THE AGE made no such statement. Ananias would blush if he chanced to read a copy of the *Brute*.

Town Topics and All Kinds of Local Happenings Told in Brief.

—Gray Hardware Company.

—Jame Overholt, of Keene, has purchased the Shandon farm just west of Roscoe and an will move there in a few days.

—Miss Mary Ricketts, who is a student at West Lafayette college, sang at the recital given Thursday evening. The solo was received with applause.

—Owing to the weather the attendance at the practice shoot of the Greater Coshocton Gun club Thursday afternoon; was small. Another shoot will be held next week.

—The Ohio experiment station warns farmers against buying fruit trees from a man who claims that he is selling for the station. The experiment station does not sell fruit trees through agents.

—THE AGE is grateful to the public for all news matter sent to this office, but each communication must bear the name of the writer, not necessarily for publication, but that the person be known at this office. Because it bears no name a society item of interest does not appear in this issue.

A BIG BALANCE

Will Be on the Side of Coshocton if Industries Are Secured.

Coshocton is after a bicycle factory, pottery and a glass plant. If secured they will overbalance the lost steel works.—*Cambridge Sun.*

The steel works never did Coshocton good, and this place will breathe a sigh of relief when the last pound of iron and the last stick of wood is shipped away. Coshocton's other industries are not trust ridden concerns and enjoy unexampled prosperity, while the industries to come will employ perhaps five times as many people as did the rolling mill.

HOUCK IS ALL RIGHT.

His Brother Denies That His Appetite is Failing.

Reports have been sent out from Mt. Vernon to the effect that George Houck is nervous and restless and his appetite has failed. Hon. L. B. Houck, his brother, said Thursday that he was in good health and excellent spirits.

The defense is confident Houck will be acquitted. According to the Mt. Vernon *Republican* Attorney Moore said that there were no new developments, but that they confidently expect to clear the man when the proper time comes. The attorneys say that they will prove Houck's innocence beyond any doubt.

Fruits.

One car load of fine fresh fruits must be sold quickly. Naval oranges ruby blood oranges, Tangorine oranges, grape fruit and fresh tomatoes. Also all kinds of confectionary. Best quality large or small size oranges at half price. We will sell you the largest grape fruit at five and ten cents. Everything at grately reduced prices.

A Family Tragedy.

Burlington, Wis., March 22.—While trying to separate two of her sons, Noah and John Piper, who were engaged in a drunken fight at Honey Creek, a vilage near here, Mrs. Jonathan Piper, 70, was stabbed in the back by one of the men, the blade penetrating her left lung. It is feared Mrs. Piper will die.

Wheat Conditions.

New York, March 22.—R. G. Dun's Review, on March 23, will say of the condition of the winter wheat crop: "Reports from the branches and a large number of correspondents in the winter wheat belt show the condition of the growing grain generally favorable. In Ohio, Kentucky, Indiana and Illinois, the acreage is reduced owing to partial failure last year, and the mild winter in some sections has been unfavorable. In Michigan the acreage is less than last year, but the grain wintered well. The best reports come from the southwest. In Missouri the grain has wintered well and a large yield is expected. In Kansas, Oklahoma and the pan-handle of Texas there is considerable increase in acreage, and the condition of the grain is never better."

MAY CAUSE A STRIKE.

Massillon Miners and Operators Discussing a Wage Scale.

Massillon, O., March 22.—The annual conference of the miners and operators of the Massillon coal field, which embraces the counties of Stark, Summit, Medina, Portage and Wayne, opened here. The most disputed point is the demand for an 8-hour workday for hoisting engineers, which, if not granted, may cause a strike. The miners demand an increase in the price of break-throughs and a reduction in the prices of house coal, powder, smithing, the semi-monthly payment of wages, and the abandonment of back-action screens.

Hunters Rescued.

Bellefontaine, O., March 22.—Edward Edmondson and Lee Todd, Urbana duck hunters, were rescued from an island in the Lewistown reservoir, where they have been held captive by high waters since Wednesday morning. They were almost starved. A fire they had built on the island attracted fishermen to the rescue.

Car Barn Burned.

Cincinnati, March 22. — One of the car barns of the Cincinnati Traction company was totally destroyed by fire. Thirty-five streetcars, valued at $2,000 each, aggregating a loss of $70,000, were consumed. The building was valued at $20,000, making the total loss $90,000.

Grand Army Rates.

Cleveland, March 22.—An important meeting of railway men was held here at which the 1 cent a mile rate, promised for the Grand Army national encampment to be held in Cleveland next September, was formally promlulgated. This fixes the railroad rate absolutely and finally.

Ran on the Rocks.

Poughkeepsie, N. Y., March 22.—The steamer Poughkeepsie of the Central Hudson Steamboat company ran on the rocks at Stony Point, a few miles south of Haverstraw, before daybreak. All the persons on board were taken ashore. No one was hurt. The vessel is badly wrecked. At the time of the accident there was a heavy downpour of rain and the night was very dark, and the pilot did not see the lighthouse, which is only 200 feet from where the vessel ran ashore.

Warehouse Destroyed.

Chicago, March 22.—Fire totally destroyed the large warehouse of J. S. Ford, Johnson & Company. The building and everything inside was ruined. The north, south and east walls of the building collapsed while a number of firemen were inside fighting the fire. They were compelled to drop their hose and run for their lives. Several were badly bruised by falling bricks. The cause of the fire is unknown. The total damage is estimated by officials of the company at $200,000.

A Wintry Spring.

London, March 22.—The first day of spring was characterized by a gale, and a heavy snow storm sweeping over the channel. A storm has been raging for three days over the North sea. Wintry weather is general throughout central Europe. In consequence of the gale in the channel more than 300 steamers are anchored off South End. The vessels are so crowding the anchorage that several minor collisions have occurred.

Miners Crushed.

Winnipeg, March 22.—News reached Fort William of a doubly fatal accident at the "A. L." mine. While placing a boiler in position at the mine James Hammond and John McGrath were instantly killed, being crushed by the heavy boiler falling on them. Hammond was a pioneer mining man, and was interested in the Hammond-Reif gold mine, which is named after him.

Found Six Skulls.

St. Louis, March 22.—Workmen who were tearing down an old historical house on the west side of Third street, just north of Clark avenue, in accordance with an order, discovered six skulls under the floor separating the first and second stories. The house, which was once a fine residence, is said to be 125 years old, and one of the first built here. Nobody now living knows how the skulls came where they were found.

Protested His Innocence.

Kennett, Mo., March 20.—Protesting innocence, Milo Gregory, 26, was hanged here for the murder of his employer, Joseph Covert, Feb. 20, 1899, in the northern part of Dunklin county. He shot and killed Covert, who was a sawmill owner, in a dispute over the value of an iron wedge. In a written statement Gregory says that the killing was accidental.

NEBRASKA DEADLOCK.

Senator Hanna and Certain Legislators Exchange Telegrams.

Lincoln, Neb., March 22. — A message from Senator Hanna to the anti-Thompson forces came, as follows: "Hon. J. A. Whitmore: The friends of the administration here are deeply concerned about senatorial deadlock in your state, and we ask your influence to secure settlement on caucus recommendation by national committee." Ten of the anti-Thompson men joined in the following telegram to Senator Hanna: "Short caucus nomination ignores recommendations of national committee. His election would be disgraceful to state and suicidal to party. Will oppose him to the end."

Amicable Adjustment.

Berlin, March 22.—"Negotiations are now being calmly carried on between the St. Petersburg and London cabinets," said a high German official, "to adjust peaceably the Tien Tsin affair. There is no reason to indulge in serious fears. Perhaps also other mediating influences will be brought to bear to prevent the differences becoming acute, but even now it is certain that Great Britain and Russia will not quarrel seriously over a strip of land at Tien Tsin."

Closure Applied.

London, March 22.—During the discussion of army estimates the Irish members protested against the war in South Africa as unjust, and generally resorted to tactics for obstructing the adoption of the votes. Mr. Broderick, the war secretary, appealed to them to allow the votes to be taken, promising that an opportunity would be given after to discuss army matters. Finally Mr. Balfour applied the closure, the Irish members howling and shouting "scandalous," "gag," and similar ejaculations. The vote for army pay was adopted by 157 to 48.

State Control of Liquor Traffic.

Buffalo, March 22—Hon. Benjamin R. Tillman, United States senator from South Carolina, addressed the Independent club on "State Control of the Liquor Traffic." Senator Tillman described the workings of the dispensary law of South Carolina and upheld it as the best system yet evolved for the control of the liquor traffic. It has reduced drunkenness 50 per cent; abolished the open barroom, with its resulting misery and wrongdoing, and, compared with prohibition, it treats men rationally.

Fiver Boats Founder.

Muscatine, Ia., March 22.—Two old-time river boats, the Kate Keen and the Nola K., have sunk to the bottom of the Mississippi, loaded down with clinging ice and soaked with water. An attempt will be made to raise them as soon as the river becomes lower. They are both the property of Captain Hysell, and have been in service since the sixties.

Wireless Telegraphy Across the Sea.

INVIGORATED

HOW A WOMAN GOT HER STRENGTH BACK.

She Took Our Vinol with Good Results.

WE WANT EVERY ONE TO KNOW ABOUT IT.

READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy.

If you feel listless, without ambition and run down, it is a bad sign.

You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic.

You should take Vinol, which we know and will guarantee will restore your strength.

Following is one case where it did this. Mrs. T. H. Boyle, of 56 Chestnut St., West Newton, Mass., says:

"Last spring I used one bottle of Vinol. At that time I was all run down and sick. I find that it did me lots of good, and by its use my strength came back to me."

Vinol is a delicious preparation, containing the active curative principles that are found in cod-liver oil, dissolved in a delicate table wine.

Vinol acts directly on the stomach, aiding digestion and at the same time creating a healthy appetite. It gives strength and vigor to every organ of the body.

We endorse Vinol, and guarantee its action, and will gladly refund to any one who is not satisfied the money which they paid for it.

TROOPS WITHDRAWN

Russia and England Reach a Temporary Agreement.

FORTUNATE OUTCOME OF A CONFAB.

French and the British Also Make an Arrangement, Removing Any Possibility of a Clash—Powers Discussing Indemnity—The Latest Phase of the Chinese Situation.

Peking, March 22.—Diplomacy will be resorted to in an effort to effect a settlement of the dispute between the British and Russians. Count Von Waldersee, General Barrow and General Wogack have been in consultation, and General Wogack agreed to withdraw the Russian troops from the disputed ground at Tien Tsin provided the British also withdrew. He insisted also upon a guarantee that work on the railway siding should not proceed until the matter had been diplomatically adjusted. This proposal and stipulation were satisfactory to General Barrow, and were accepted by him. Consequently the British and Russian troops were withdrawn at 5 o'clock this morning, thereby avoiding all trouble at present.

The marines will return to the ships. Admiral Seymour objects to any of the Australian naval brigade, who volunteered for service on the railway, remaining. The military authorities say he does not understand the situation; that his interference is uncalled for, and that the Australian marines are just the men needed. The Russians have ordered a regiment to proceed from Port Arthur to Tien Tsin. The arrangements made by General Bailloud, the French commander, are regarded as completely satisfactory, and all danger of a collision between the British and French is considered obviated.

Question of Indemnities.

Washington, March 22.—A number of foreign representatives called at the state department, all keenly aroused over the progress of negotiations concerning indemnities. The Russian view as to indemnities appears to coincide with that of the United States, being favorable to keeping the amount down to a sum which there is some prospect that China can pay, instead of placing it so high that China's inability to pay will result in a territorial scramble. All of the foreign representatives minimized the troubles at Tien Tsin, and it was not brought up in the conferences with Mr. Hay.

The Russian Claim.

London, March 22. — Dr. Morrison, writing to The Times from Peking, says: "The Russian claim to the railway siding at Tien Tsin is based upon the grant a new concession made to Russia by Li Hung Chang since the occupation. This concession embraces a huge area in a commanding position, with a river frontage of two and a half miles. Such a grant is scarcely compatible with the pledges of the powers as to disinterestedness, and it is doubtful whether Li Hung Chang, as viceroy of Chi Li, had the right to make it."

She Preferred Death.

Chicago, March 22. — The body of May Comstock of Benton Harbor, Mich., the young music student who, it is believed, committed suicide by jumping into the lake, was found buried in the sand on the beach near the Sixty-ninth street pier. It has been ascertained that the cause of the girl's suicide was the fact that she had run into debt to the extent of $7 and dreaded to ask her father for the money.

Combine of Mining Properties.

Springfield, Ills., March 22.—It has developed that the Harriman syndicate, controlling the Chicago and Alton and Illinois Central railroad systems, is back of the movement to consolidate the coal mining properties of Illinois into a $75,000,000 combine. The capitalists of this syndicate will lend their financial support to the consolidation project, and will hold a majority of the stock in the enterprise.

A Threatening Letter.

Fort Scott, Kan., March 22.—An attempt was made to extort $2,500 from the family of D. F. Coon, a St. Louis broker, who resides here. A demand was made for $2,500 to be left at a designated spot near a cemetery. The letter said that refusal to comply with the demand would mean bodily harm to different members of the family. A deputy sheriff took a decoy package to the spot indicated in the letter, but no one appeared.

Result of a Quarrel.

Lafayette, Ind., March 22. — James Caul, a helper in the Monon roundhouse, is dying at the hospital of a pistol shot in the abdomen, inflicted by J. E. Cullen, a machinist in the same department, as the result of a quarrel. Cullen surrendered to the police after the shooting.

A Jealous Woman.

Berlin, March 22.—A sensational murder was committed in Dresden. Herr Gunkel, a prominent musical composer, was shot by Marie Jaihnel, the divorced wife of a railroad director in Prague. The motive, jealousy.

A CUDAHY KIDNAPER

Reported to Be In the Toils in Texas Alleged Confession.

Dallas, Tex., March 22.—Sheriff Johnson makes the following statement: "H. C. Henderson confessed to me and County Attorney Summers that he is one of the Cudahy kidnapers. His confession was made voluntarily. He stated that he had squandered and used in fleeing from Omaha most of the money he got as his share in the kidnaping job before I arrested him in this city as a suspect in February."

To Be Settled Legally.

Washington, March 22.—Formal notice has been received of the institution of legal proceedings in Venezuela to settle the asphalt controversy. The representatives of the Warner-Quinlan syndicate, on Feb. 1, brought suit in the highest court of Venezuela for the issuance of a summons against the New York and Bermudez company to secure possession of La Felicidad concession. The New York and Bermudez company is in possession of the asphalt lake.

Town Marshall Killed.

Hoxie, Ark., March 22.—News was received by telephone from Pocahontas, Randolph county, that John Norris, the town marshal, was shot and killed by James Chavaro, occupant of a houseboat on Black river. Norris was attempting to cut loose a raft on the river when Chavaro ordered him to desist or he would shoot. Norris continued his work and Chavaro shot him. Feeling against Chavaro is running high and talk of lynching is freely indulged in.

HISTORY OF HARRISON.

Continued from First Page.

ond wife and child were whatever means he had acquired from his wife's death to his own. Never was there a fairer and more generous disposition of property made in the world than the division made to the children of his first wife.

The community was shocked this week when it was said that Mrs. McKee had declared that the second Mrs. Harrison was the cause of her mother's death. This accusation was the quintessence of wickedness and a disgrace to the person who made it, if in her anger she so far forgot herself as to accuse the general's second wife of a crime that would virtually make her worthy of the severest punishment. I cannot and will not believe until furnished with better evidence that the president's daughter could accuse his second wife of such a crime. If money has been the cause of this, the exhibition is about as shameless as that given to the world by the daughters of Edgar Duryea. The American people will take no stock in the accusation. In General Harrison they recognize a brave soldier, an upright citizen, a loving husband and an honest man. The evidence is that those who knew him all his life had faith in his integrity and honor. The cortege that followed him to his resting place included many of the distinguished citizens of the Republic. And so we lay him in the earth, satisfied that his honorable reputation is secure for all time to come. Honest public servant, brave old soldier, faithful friend weighed in the balance and never found wanting, farewell!

A year ago the entire nation was shocked, from the swift flowing tide of the St. Lawtence to the yellow banks of the Rio Grande. A young girl in the city of Patterson, in the state of New Jersey, was sent out on an errand by her mother, and as she had not returned by midnight there was great apprehension. Then a messenger came to her in the morning and told the maddened mother where she could find her child. The whole city was one scene of excitement when it was learned that a crime had been committed almost without a parallel in our history. The foolish young creature, passing a German beer garden, met three young men with whom she had a flirting acquaintance She was invited into the saloon to take a drink and the party retired to a private room. Mixed ale, whiskey, champaigne and knock-out drops were eventually imbibed and the poor creature rendered insensible as a mummy, was led to her ruin and her death. It is not necessary to recapitulate the horrors of that night or the nameless crime of which these unhung villains were guilty. Strangely encugh, on searching the criminal calendar no provision was made for a crime like theirs. Instead of such a brutal murder being visited by the highest punishment known to the law, it was discovered that the utmost limit of their punishment was state's prison for a term of years instead of the electric chair or the gallows.

The reason for this omission was said to be the impossibility of such an offense being committed, but yet within the past week we were brought face to face with a dreadful repetition of this crime. A young girl walking out in the evening meets a male acquaintance whom she had known for some time. During their walk they met some other young men. She was lured into a stable which belongs to the father of one of the boys. There she was brutally assaulted. After trying for some time to revive her she was left there to die. She was discovered by the mother of one of the boys, who did everything in her power to assist her, but making no progress in that direction, she sent a message to the girl's family telling her parents where she might be found. The whole case is such a shocking repetition of the Patterson crime that there seems to be a general desire to blot from our memories, if possible, its recurrence. The police under the new dispensation, made an active hunt until the boys were arrested. They are now in jail and await their trial and punishment.

The funniest thing in connection with the gambling crusade is exposed by the Rev. Dr. Huntington of Grace Episcopal church. It is well known that Grace is the swell Episcopal church of New York, but ranking old Trinity, which is regarded as the Episcopal cathedral. This fashionable congregation was startled this week with the announcement that gambling was permitted in the best of our fashionable society. That fashionable young women of good family were nightly playing for high stakes, and that young men, clerks in banks and mercantile houses, were invited to evening parties where their money was lost which they could not afford to lose, and they left with empty pockets. Dr. Huntington, although a high priest in the Episcopal church [illegible] that such a condition of affairs exists the public may rely upon it that he knows what he is talking about. But it needs no reiterated assurance to prove it. The part of our Christian population of which Rev. Mr. Huntington speaks are those who are sup posed to set an example for those below them and for the betterment and purity of society. In the stoppage of the pool rooms are we straining at a gnat, or in permitting it in our policies are we swallowing a camel? It is a difficult problem to deal with, but there ought to be wisdom enough in our 8,000 guardians of the peace to find some one to throttle and destroy the difficult problem.

BROADBRIM.

MAY CHANGE THE ROUTE

Cleveland, Akron & Columbus Improvements Near Brink Haven.

A surveying party has been at work between Brink Haven and Killbuck searching for a new line for the Cleveland, Akron & Columbus. The proposed route is from Killbuck along Wolfe Creek to Stillwell to Brink Haven.

The new route is three miles shorter and by the building of a small tunnel or making one deep cut a much better road will be built. If this change is made Glenmont will again be without a railroad, as the old line will be abandoned. The change has been under consideration for some time past as at present this is the worst piece of road between Columbus and Cleveland, and the new management seems determined to remedy this matter as soon as possible. For a number of years it has been necessary to keep a train crew at Brink Haven day and night to assist all freight trains over the summit.

BREAKING IN A DRAY.

The Horse Ran Away and Thoroughly Tested the Vehicle.

The Coshocton Vehicle company owns a fine new dray, and Thursday afternoon Charley Milligan hitched a horse to it and drove to the company's plant in the board of trade second addition.

The outfit was left standing in the rear of the factory when the horse frightened and ran away. It galloped toward the rolling mill, made a wide circle and came back across lots. Then it dashed into Chestnut street with the evident intention of coming down town. But the horse fell and a general tangle resulted. The dray was damaged but the horse escaped injury.

STRUCK IT RICH

Loudonville Man Came to Coshocton and Found a Good Thing.

The following from the Loudonville *Advocate* shows that Coshocton's prosperity is appreciated beyond the city limits:

"W. R. Richards was in Coshocton Friday and bought a new seven-room house with all modern improvements, for a consideration of $1500. Mr. Richards made a good purchase, as five minutes after the sale was completed he was offered $150 more than he paid for the property and another man later, informed him that he could easily get a profit of $400. He will move his family to his new home in about thirty days."

THE BALL IS ROLLING.

Board of Trade Will Probably Meet Next Week.

The correspondence between Secretary Boyd and manufacturing concerns desiring to locate in Coshocton is so satisfactory that a meeting of the board of trade will probably be called for next week. The date has not yet been determined.

The board will not only consider the propositions spoken of in THE AGE but it is stated that others will be brought out. That the ball will continue to roll merrily on no one doubts.

ONE CENT A MILE

Will Be the Rate to the Grand Army Encampment.

Grand Army men have been speculating for some time on the probable railroad rate to Cleveland during the Grand Army encampment next summer. A liberal rate was expected because Denver could not carry out its promises on the railroad question.

The cost will be one cent a mile. Passenger men reached that decision Thursday after a long conference. It means an enormous attendance at the encampment.

FOURTEEN DUCKS

William Felumlee Broke the Record and Seth Snyder Did Well.

Seth M. Snyder and William Felumlee broke the record of this season's duck hunting Thursday, returning with [illegible] ducks after a day's hunt along the Muskingum. Of that number Felumlee killed 14. [illegible]

Not a Compound.

Lion Coffee is pure coffee, not coated with any mixture requiring the package to be labeled "compound" in order to avoid the penalties of the Pure Food Law.

All so-called "self-settling" coffees deceive the purchaser by making him pay for something that is not worth the money, and when they contain eggs the argument is doubly strong, for the eggs are, of course, FACTORY EGGS, which you would not permit on your table.

Do not buy "Compounds" of coffee and factory eggs, when FOR LESS MONEY you can buy pure, unglazed

Lion Coffee

SEE FOR YOURSELF what you are drinking by stirring a handful of "Self-settling" Coffee in a glass of water; then ask yourself if you want to drink such stuff. The same experiment on Lion Coffee leaves the water clear and pure. TRY IT. It is a simple test that means much to you.

Fate of Platt Amendment.

Havana, March 22.—An element of doubt now exists as to what will be the final attitude of the Cuban constitutional convention. The preponderance of public opinion in favor of the Platt amendment during the last few days is having its effect upon the radical members, and General Sanguilly's press utterances further tend to weaken the strength of the radicals. General Sanguilly was the most radical of all the delegates. He favored dissolving the convention when the United States congress adopted the amendment. Now he expresses himself as favoring the amendment and the granting of coaling stations and the Isle of Pines to the Americans.

Big Catches of Seals.

St. Johns, N. F., March 22. — The sealing steamers Aurora and Diana, the former with 32,000 and the latter with 28,000 seals, entered the harbor of Green's Pond, 100 miles northwest of St. Johns. Both vessels carry full loads. They report that the Ranger, with 24,000 seals; the Neptune, with 22,000; the Vanguard, with 21,000; the Greenland, with 16,000; the Iceland, with 15,000; the Algerin, with 14,000; the Virginia Lake, with 13,000; the Walrus, with 12,000; the Nimrod, with 10,000, and the Leopard, with 9,000, were still fishing when they left the floes, while the Terra Nova and Newfoundland were doing well.

Stolen Child Restored.

El Paso, Tex., March 22.—May Carrie Stevens, kidnaped from here six years ago, when but five years of age, and not heard of again by relatives until recently, was brought back from Danville, Ind., and restored to her mother, Mrs. Anna Stevens. The meeting was an unusual one. The mother was unable to recognize her child, who was a mere baby when last seen by Mrs. Stevens. The stolen child was able to tell a connected story of life [illegible]

DONLEY WAS VACCINATED

He Had Been In Avondale Before the Smallpox Scare.

R. L. Donley is confined to his home on Locust street by a very sore arm.

A day or two before it was announced that Doctor Kitzmiller had smallpox he was in Avondale, and fearing he would contract the disease he had a physician vaccinate him. The result was more than he expected and today he was unable to leave home.

SAFE IN THE CELLAR.

Changes Being Made in the Office of Auditor Lamberson.

When the new safe was installed in the office of the county treasurer the old safe was sent to join the original county safe in the auditor's office. It occupied so much space that it was decided to move it to the basement and that work is now in progress.

The original safe is still in the auditor's office and will remain there. It is 23 inches high and the other dimensions are 18 by 24. The lock is a primitive affair and the interior is fitted up with drawers. The door is less than an inch thick. At one time the funds of Coshocton county were regularly placed in this little box.

NEW TRAVELING AUDITOR.

C. J. Shaw Will Take the Place of the Late Samuel Parks.

Agent Davies has been officially notified that C. J. Shaw has been appointed traveling auditor of the Wheeling & Lake Erie taking the place of the late Samuel Parks.

The new official comes from the Cleveland, Lorain & Wheeling, and is well known among railroad men as a careful, efficient accountant.
